SKILLS

02

Hard Skills

VMware vSphere, OpenStack Python, Golang, C, C++, Java, C#

AWS, Azure, GCP MySQL / PostgreSQL

Notion, Office Terraform, Ansible

Soft Skills

Analysis, synthesis and problem solving

Agile Team work

Adaptability Leader

CERTIFICATIONS

03

AWS Cloud Practitioner TOEIC - 975

LANGUAGES

04

French (native) Arabic (native)

English (bilingual)

EXPERIENCE

05

02.2022 - Present (8 Months)

SRE - EPITA (SiOps)

- Maintained a **VMware vSphere** infrastructure hosting 5 projects including the school's corporate relations site, used by more than **3,000 students**.
- Introduced monitoring and logging services to our clients using the ELK stack.

09.2021 - 01.2022 (5 Months)

SRE - SNCF Réseau

- Designed a script to manipulate **OpenAPI specification** files.
- Improved the **testing workflow** of 30 developers by deploying an API Mocking server on our **Kubernetes cluster** using **Helm Charts**.
- **Eliminated API conflicts** on our **10 projects** by developing an API specification validator in **Python** to check **file integrity** and **code compliance**.
- Authored a **best practices** guide for development in **Python**, for the use of the **Django framework** and the writing of **OpenAPI specifications**.
- Designed and implemented **Django System Checks** to verify that the best practices guide has been respected by our 30 developers.
- **Improved deployment time** by integrating various tools to the **CI/CD** of our **10 projects**.
- Maintenance and upkeep of the division's **documentation**.

NON-PROFIT

06

02.2021 - Present (1 Year and 7 Months)

Member and Vice-Treasurer (2021-2022) - Prologin

- Orchestrated 100 **team members** 15 regional test across 2 countries.
- Orchastrated **80 team members** during a **3 days non-stop** coding contest on-site with **130 young contestants** under our responsibility.
- Organised **10 workshops** and introduced **~200 young girls** to coding and the many fields of IT.
- Handled a **100K budget** from June 2021 to September 2022.

EDUCATION

07

09.2018 - 07.2023

EPITA - Paris, France

Engineering degree in Information Systems and Software Engineering.

- Deployed a **highly available** web service and **Cloud Management Platform** on a hybrid cloud by deploying an **Openstack** cluster using **Kolla Ansible**.
- Developed tested and implemented an Information System for an e-commerce site in a team of **60 people**.
- Deployed a static website on an S3 bucket with an auto scaling CMS to achieve a more **sustainable architecture**.

01.2020 - 06.2020

California State University Los Angeles, Californie, USA

Academic exchange semester.

2004 - 2018

Collège Notre Dame de Jamhour - Beyrouth, Liban

French Baccaureate with specialization in Maths.
